

CASE STUDY

RUSHALL OLYMPIC FC CHARITY PROJECT

Wilson and Scott upgraded the lining around Rushall Olympic football club site to improve safety and organisation for visitors and supporters. Clear, durable markings were added around the pitch to guide pedestrian movement and create a safer, more welcoming environment for the local community.

FULL SITE LINE MARKING UPGRADE FOR A SAFER, CLEARER SITE

PROBLEM

Rushall Olympic Football Club wanted to improve the safety and organisation of its site for players, supporters and the wider community. Clear, visible pedestrian routes around the pitch were needed to help manage fan movement and create a safer experience on match days and during busy events.

SOLUTION

As part of our commitment to supporting the local community, Wilson and Scott kindly provided an upgrade to the site's lining. We marked out clear pedestrian and spectator routes around the pitch, creating defined areas to guide fans and improve movement throughout the site.

RESULT

The refreshed lining has created a clearer, safer and more organised environment for supporters visiting Rushall Olympic. Clearly defined routes help guide fans around the ground, improve overall site management and contribute to a more welcoming match-day experience for the whole community.

“

“We’re absolutely amazed with the help Wilson & Scott have given us. The lining is important because it helps with health and safety, guides people around the ground and shows people where they can and can’t go. It’s just great that Wilson & Scott have come in to help our football club.”

**Nick Allen, Vice Chairman & Director,
Rushall Olympic FC**
